

# Fishing

In Punta Cana, big game fishing is very good and annual tournaments draw international participants throughout the summer. Punta Cana ranks among the world's Top 5 Destinations for the Famous White Marlin Fishing, with peak season starting in late March and ending in June. You can expect to catch blue marlin, white marlin, Dorado (mahi), Wahoo, yellow fin tunas, bonitos, barracudas and others. Best fishing is during the long lasting Billfish season starting in March until mid September. At the end of May 2009, the German Big Game Championship will be held at the Punta Cana Marina. Arrangements can be made at the Punta Cana and Cap Cana Marinas where you can secure professional operating Marinas all along the Dominican East Coast. Another new marina, located at the Westin RocoKi in Macao, right aside all Bavaro/Punta Cana Hotels will join the ranks in the summer of 2009. Other professional operating Marinas also started offering their services with a few tour operators and with guest services our of some hotels. Always make sure you get confirmation before your arrive for services offered by a fully insured Outfitter operating at any of the Marinas listed below. <http://www.firstclassfishing.com/>
